### **2011 Agriculture Program Enrollment**

The area Dairy, Field Crops, Livestock and Farm Business Management Team brings expertise to participants without added costs and continue to address individual needs. Work force training, Hispanic labor management and training, environmental concerns, and production management and profitability continue as areas of concentration for our agriculture programs. Your out-of-pocket costs are a bargain by any available comparison.

We continue to maintain an enrollment option in Livingston County whereby you can access the Northwest New York Dairy, Field Crops, Livestock and Farm Management Team, in addition to the County enrollment. County enrollment (\$15) is required to obtain team enrollment (\$35). And we still include *Cornell Recommends Field Crops* in the \$50 NWNYS Team total.

Enrollment entitles businesses to a listing in the Business Directory published annually in the *Livingston County Agricultural News* if indicated. Extension resources remain a competitive cost bargain, with strong county government support maintaining our overall structure.

### **Team Enrollment Advantage**

There will be **differential fees** for attendance at meetings such as Corn Congress and other activities of the area Team. **NWNYS Team** enrollment will secure you a lower fee.

Enrollment connects you to notification of a variety of scheduled events and activities, as well as timely management and production update letters such as TAG Notes for current growing season field crop situations.

Questions? Call me at the Extension Office at 658-3250, ext. 109.
